EARTHQUAKE IN CALIFORNIA.

WORST SEISMIC DISTURBANCE KNOWN IN MANY YEARS.

PROPERTY BADLY DAMAGED.

Buildings Were Cracked, Plate Glass
Windows Broken, and Chim-
neys Tumbled Down.

SAN FRANCISCO, Cal., June 21.—Two sharp and severe shocks of earthquake were felt here Sunday, the official time of the first, as taken by the United States Weather Bureau, being 12:14:54. It was followed almost immediately by a second shock. The vibrations were from west to east. Clocks were stopped and suspended lamps and decorations were broken in some places, but no real damage is reported. The shocks were the most severe experienced here for many years. The earthquake was general throughout the State.

Late reports regarding the earthquake show that it was quite severe at Salinas, the county seat of Monterey County. The most important buildings damaged are the armory of Troop C, which had its walls badly cracked and parted; the Nance building, which was in process of construction and will have to be taken down, and the Farmers' Union building. The latter had an old crack in the front opened four inches for a length of several feet. In the interior of the latter building bricks fell and plastering was damaged.

The Salinas Hotel, the Jeffery, Abbott and Bardin houses all suffered more or less, windows being broken and walls cracked. In the leading merchandise houses large plate glass windows were broken. On the residence streets chimneys were thrown down and windows smashed. The Post-office building was cracked on its front. Public halls are injured to a great extent. The City Hall has been seriously injured and the Court-house has suffered.

The old brick Salinas Hotel was cracked across the top. There were over seventy-five windows broken in the Bardin House, and in over half the rooms the walls are cracked.

At Graves' Switch the warehouse was ruined and the huge railroad tank almost emptied of its contents.

A section of adobe wall in the Mission Church of San Carlos, in Monterey, tumbled in on the congregation and a panic almost resulted. Congregations were at worship in various towns when the shock occurred, and in some churches panics were avoided by the cool-headedness of the minister. A record of the shock was made at the Lick Observatory.

GILROY, Cal., June 21.—The heaviest earthquake ever felt here occurred Sunday and lasted only a few seconds. Numerous chimneys were toppled over, house walls were cracked, every plate-glass store window was shattered, and there was a general wreckage of bottle and china in houses and stores. People rushed out of their houses, thinking the last trumpet had sounded in earnest. In some places the walls were wrenched from the hangings, and an unusual scene of petty destruction is presented in nearly every house and store in town.

HOLLISTER, Cal., June 21.—Shortly after noon Sunday the most severe earthquake shock since 1868 did many thousands of dollars' damage to buildings and property. No casualties occurred, though several narrow escapes are recorded. Every brick building in town has suffered, and in the County Jail the walls and ceiling have lost their plastering. Immediately after the earthquake a fire "wall" of the McMahon House fell upon the adjoining buildings. Hundreds of window panes were blown out, and in some instances entire window sashes were thrown into the street from the second story of buildings.

TEHUANTEPEC DESTROYED.

Report of Damage by Earthquake and Volcano Is Confirmed.

OAXACA, Mex., June 21.—Advices have been received here that the official commission sent to the City of Tehuantepec by President Diaz to investigate the reported formation of a volcano and the extent of the damages, have arrived at their destination and found the condition of affairs much worse than they had expected.

The town of Tehuantepec contained about 15,000 inhabitants, and is completely destroyed, so far as houses are concerned, not one remaining standing. There were a number of substantial and costly buildings in the town. The people are living in tents and in the open air on the outskirts of the place. The earthquake shocks continue to be felt at frequent intervals, and the people are terrified. The heavy smoke and other indications of an active volcano to the west of Tehuantepec are no longer visible.

CAPT. BOYCOTT DEAD.

The Man Whose Experience Brought a New Word Into Use.

LONDON, June 21.—Capt. Boycott is dead. He was about 55 years of age and became famous through being the first man subjected to the "boycott" in Ireland. He was a land agent in 1881 in the Conemaugh section of County Mayo, where he collected rents. The Captain made a speech in the course of which he urged the people of Ireland to abstain from agrarian crimes and to adopt instead a policy of sending harsh landlords, agents and bailiffs to Coventry, the old term for boycotting. Events so shaped themselves that Capt. Boycott was the first man the Irish experimented on in this connection and hence the now familiar word of boycott.

WARRANTS FOR MEDIUMS.

Charged With Swindling a Widow Out of Her Money.

CINCINNATI, O., June 21.—Mrs. Theresa Hoffman, a widow, to-day swore out warrants for the arrest of three women who claim to be spiritualistic mediums. The charge against them is that they have conspired to rob Mrs. Hoffman of large sums of money on the claim that the spirits demand for her dead husband certain sums in order that he may be happy in the spirit world. The three alleged mediums are charged with the most prominent in the city. Mrs. Hoffman's total losses are said to amount to nearly \$2,000.

St. Louis Post-Dispatch.

THE FIRST RAID.

Squad of Police Swoop Down on "The Brooklyn" Pool Room.

At 2:30 o'clock Monday afternoon Chief Detectives Desmond, Capt. O'Malley and a score of detectives and police raided the Brooklyn pool room, 812 Olive street. Proprietors, sheet-writers and telegraph operators were placed under arrest and taken to the Four Courts.

Fully 5,000 persons gathered in front of the Postoffice and watched the raid. The bookies tried the old scheme of "sending money away," but the moment a bet was made the police proceeded with arrests.

A GIANT STEER.

Eight Feet Tall, Twelve Feet Long and Weighed 5,000 Pounds.

Special to the Post-Dispatch. WICHITA, Kan., June 21.—The famous steer, "Jumbo," which had attained the enormous weight of 5,000 pounds and was still growing, was killed this morning. The giant steer had been suffering for weeks from a peculiar disease caused by its rapid and abnormal growth and became so stiffened in the joints that it was unable to move about. "Jumbo" was 4 years old and measured 8 feet tall and 12 feet long. He had massive horns 16 inches in circumference and 8 feet across, with perfect curves. Mr. Payne decided to kill him and have him mounted while his hide was in good condition. He is an expert in handling large specimens for mounting. Among the animals he has skinned and skeletonized are two elephants, buffalo, etc. This was the largest ox ever known in the world and would have made its owner a fortune had it lived. As a mounted specimen it will attract great attention. Mr. Payne will have it on exhibition when completed, probably in the East.

SHOT TO DEATH.

Legal Execution of a Chickasaw Indian for Larceny.

Special to the Post-Dispatch. WICHITA, Kan., June 21.—Saturday afternoon just about sundown Tom Chickasaw, a full-blood Indian, condemned to die for the crime of larceny according to the laws of the Chickasaw, was placed in a wagon and driven to the graveyard just east of Okmulgee, I. T. He walked up and looked into his grave, knelt down and prayed with Rev. John McIntosh. He was then shown a large stone at the head of his grave by which he was to be executed. He sat down, facing death bravely. He advised all young men to be honest with their fellow-men, and not follow his example. After he had finished his speech he was blindfolded and shot to death by the light horsemen of the Okmulgee district. The crime for which he paid the penalty was larceny. He was convicted the third time for the same crime and was refused pardon by the chief, which alone could save him. Everybody seemed to sympathize with the condemned man, and the execution was witnessed by a crowd of about 200 persons.

WAR ON BUTTERINE.

The Dairymen Have Begun Active Agitation in Kansas.

KANSAS CITY, Mo., June 21.—Agitation has been begun in Kansas looking to the passage by the next State Legislature of a strong anti-butterine bill. This comes as a result of the recent announcement by local Kansas City (Kan.) packers that they will immediately begin the manufacture on a large scale of butterine for shipment to all states where laws do not conflict with the sale of that article. Already Kansas City, Kan., produces a great amount of butterine, and on July 1 at least three firms having Chicago headquarters will bring forces here from that city to manufacture the stuff. Blanks solicited all from firms in the anti-butterine movement and which have been sent out by the National Dairy Union, have already been signed by many Kansas farmers.

GREAT BRITAIN BOWS LOW.

THE NATION TURNS OUT TO CHEER FOR THE QUEEN.

SCENES AT THE JUBILEE.

Eight Million People, Including Astor, Will Be on Hand in London Tuesday.

LONDON, June 21.—Queen Victoria left Windsor Castle at noon by the sovereign's entrance, facing the long walk, and traversed part of the high Thames streets of Windsor on her way to the railroad station. Her Majesty's carriage was drawn by a pair of grays, with postilions and outriders. The Queen was accompanied by her eldest daughter, ex-Empress Frederick of Germany and by Princess Christian of Schleswig-Holstein and Princess Henry of Battenburg, who occupied another carriage preceding that of Her Majesty. The Queen, on arriving at the railroad station at Windsor, walked through the private waiting room, leaning on the arm of an Indian attendant, and, by a sloping gangway, entered her saloon carriage.

The early hours were enlivened by the pealing of bells and in the morning breeze everywhere floated the royal standard. The first point of interest in the day's proceedings was Windsor, where by 6 o'clock the short route leading from the castle to the Great Western Railway station was lined by a mass of people gathered to see the Queen start. Flags and flowers were everywhere, and the order of the day, "God Save the Queen," joyfully echoed from lip to lip. The statue of the Queen near the castle was decorated and gorgeously canopied in the Renaissance style and tall Venetian masts with their fluttering pennons lined both sides of the route.

At 11 o'clock the Queen left the castle. The railway station was beautifully decorated in the Renaissance style and tall Venetian masts with their fluttering pennons lined both sides of the route. The Queen's train—used for the first time today—was drawn up close to the entrance door. The magnificent engine, "Queen Empress," beautifully painted and picked out with gold-leaf, carried the royal arms embazoned in gold and colors in front and royal heraldic devices over the splashboards of the driving wheels. The train was composed of six carriages built on the American corridor system and connected by the rubber-covered passenger cars common to the States. The Queen's carriage, which is 54 feet long, occupied the center of the train.

The interior is divided into three compartments—the center, the Queen's room, and at one end an open saloon for Her Majesty's maids; at the other an open saloon for the gentlemen in attendance. The Queen's room is a large, comfortable room and a domed roof, the ceiling of which is white enamel, with hand-painted borders. The curtains and upholstery are in white silk rep. The door handles, curtain poles and cushion covers are in silver-plated. The wood-work is mahogany and the outer doors are carved with the Royal Arms. Near the windows is the Queen's favorite swinging arm-chair and sofa. A small folding writing table, on which is an ivory electric bell, completes the furniture of the apartment. Sliding glass doors communicate with the two saloons.

The start for London was made at 12:10 a. m., and for almost the entire distance the train passed between scattered groups of loyal people. Every station of the Great Western between Windsor and Paddington had been decorated. The railway employees everywhere stood at the salute, while the platforms were crowded with cheering people. The weather was fine and warm.

Paddington was reached at 12:30 p. m. Here the immense terminus had been transformed on the "up side" into a hall of resplendent crimson, garlanded with fringe gold, fragrant with the odors of countless blossoms, waited on either side by parties of people. The State carriages from Buckingham Palace were at the end of the covered way. As soon as the Queen had taken her seat the Life Guards drew up in front and rear as a roof of cheers proclaimed to waiting thousands beyond that she had arrived. Before starting a loyal address was presented by Rev. Walter Abbott, Vicar of Paddington, and Chairman of the Paddington Vestry, who was accompanied by the two Members of Parliament for Paddington.

The Queen graciously received the address and handed back to the vicar a written reply, expressing gratification at the generous instincts of her people towards the poor, and that she had produced such remarkable results. The late Prince Consort, like herself, manifested great interest in charitable institutions, and her children shared that feeling, which formed not the weakest link between her and her people. The passage-way to Praed street was lined by the Eighteenth Middlesex Regiment, which also provided the guard of honor.

SEYMOUR DISCHARGED.

Judge Bradley Turns Another Sugar Witness Loose.

WASHINGTON, June 21.—Judge Bradley this morning instructed the jury to acquit Broker Seymour, on trial for alleged contempt of the Senate Sugar Trust Investigating Committee.

RELICS OF PAST RACES.

Interesting Discoveries on the Island of San Nicolas.

LONG BEACH, Cal., June 21.—After nearly three weeks' sojourn on the barren island of San Nicolas, a party of relic hunters reached Long Beach to-day, loaded with skeletons, skulls and ancient implements and ornaments of stone and shells, the remains of prehistoric tribes.

The party found the skulls buried in the sand of the island, but were only able to secure three entire. They made an excavation twenty feet square, in which they found nine skeletons in a crouching attitude, as though men, women and children had been buried alive. In another place they found the remains of hundreds of bodies that had been burned.

Evidence was found that the island was inhabited by two or more different races, one of which was of great size, a peculiar characteristic being gigantic jawbones.

THE WEATHER FORECAST.

SHOWERS; WARMER.

For St. Louis and vicinity—Showers Monday afternoon or night; warmer; Tuesday partly cloudy.

For Missouri—Local showers Monday afternoon or night; warmer in east portion; Tuesday partly cloudy.

For Illinois—Local showers and warmer Monday night; Tuesday partly cloudy and slightly warmer.

The river at St. Louis will remain nearly stationary.

High pressure prevails Monday morning east of the Rock mountain, except in New England and the Gulf States.

In the West the barometer is generally low.

There has been a decided fall in temperature in the Central Valley and East and a slight rise in the West and Northwest.

Local thunderstorms have continued in Missouri and portions of the Northwest, and there were showers on the Atlantic coast and in the Ohio Valley.
